Revenue from Contracts with Customers — A guide to IFRS 15

The core principle of the new revenue recognition guidance is focused on the contract between a vendor and a customer for the provision of goods and services. Revenue is recognized when control over a good or service is transferred to the customer, and is based on the consideration to which the vendor is entitled.

Revenue Recognition

The new guidance on revenue recognition affects any reporting organization that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts).

Revenue Recognition Standard, ASC 606 - PwC

IFRS 15 specifies how and when an IFRS reporter will recognise revenue as well as requiring such entities to provide users of financial statements with more informative, relevant disclosures. The standard provides a single, principles based five-step model to be applied to all contracts with customers. IFRS 15 was issued in May 2014 and applies to an annual reporting period beginning on or ...

Revenue Recognition

The FASB 's new model, codified in Topic 606, Revenue from contracts with customers, applies to a company's contracts with customers, except for contracts that are within the scope of other standards (e.g., leases, insurance, financial instruments).
