Ancient Roman Military, Army - Crystalinks

Rome's rise to empire is often said to have owed much to the efficiency and military skill of her armies and their technological superiority over barbarian enemies. But just how 'advanced' was Roman military equipment? What were its origins and how did it evolve? The authors of this book have gathered a wealth of evidence from all over the Roman Empire - excavated examples as well as pictorial ...

Adjustable Roman Balteus Belt with Tassets from thick leather and fittings are tin-plated brass. The swivel rondels can be used to anchor a Pugio dagger into place. The tassets with tin-plated medallions can be placed onto, or removed from the belt as desired.

Archaeological museum - Roman military equipment  
Most items of Roman military equipment were decorated to some degree, but it is the pugio scabbard that the individual soldier paid most attention to. The amount and nature of this decoration appears to have been determined by the amount of money the legionary was prepared to pay, thus reflecting his pride and wealth.
