FOR RELEASE – April 1, 2014HodgePodge Press | HodgePodge Press

Ryan the Black Caiman is Shannon's first children's story, written for her son as he studied the black caiman for his Quest research project. He wanted a way to not only learn about the black caiman but also help them and their habitat. Brainstorming together yielded the fable: Ryan the Black Caiman and His Unusual Friends.

Ryan The Black Caiman And

The black caiman (*Melanosuchus niger*) is a species of large crocodylian and, along with the American alligator, is one of the biggest extant members of the family Alligatoridae and order Crocodylia. It is a carnivorous reptile that lives along slow-moving rivers, lakes, seasonally flooded savannas of the Amazon basin, and in other freshwater habitats of South America.

Caiman - Wikipedia

Caiman, also spelled cayman, any of several species of Central and South American reptiles that are related to alligators and are usually placed with them in the family Alligatoridae. Caimans, like all other members of the order Crocodylia (or Crocodylia), are amphibious carnivores. They live along the edges of rivers and other bodies of water, and they reproduce by means of hard-shelled eggs ...

caiman | Description, Genera, & Facts | Britannica

Skeleton. The black caiman has dark-coloured, scaly skin. The skin coloration helps with camouflage during its nocturnal hunts, but may also help absorb heat (see thermoregulation). The lower jaw has grey banding (brown in older animals), and pale yellow or white bands are present across the flanks of the body, although these are much more prominent in juveniles.
