Sand in My Eyes by Christine Lemmon - Goodreads

Too often when my family is out and about in the city, we see such sad cases on the roadside and in empty desert lots. My eyes seem to search them out now. I can't help it. Just ask C - in three years, I have dragged exactly five dogs and one kitten into our lives temporarily. These were the saddest of cases that I just could not walk away from.

Sand may contain plant material or other contaminants that can cause an eye infection, especially if the eye was scratched. This is why your doctor will typically treat you with a course of topical antibiotic drops after any foreign material has been in the eye.

Dry and Gritty Eyes Causes and Treatments

Sand In My Eyes The diary of a white girl in Arabia. June 24, 2014 by whitegirl. Pass Go! I knew that I was on the cusp of the winnings. I could feel the winds of victory softly touching my hair and lifting my spirits. Soon, they whispered. I had thought that my gift card was winnings enough. I certainly felt satisfied.

Sand in My Eyes - All The Tropes

It's never a good idea, as germs on your hands could lead to an eye infection. The best way to clean your eyes (and, it feels good!) is to lay a washcloth soaked with very warm water on your eyelids and lashes and gently clean them. If your eyes seem to be extra-sticky, relax and leave the washcloth on there for a few minutes.

What Causes Sleep Sand In Your Eyes?

Many people visit the eye doctor with a common complaint: "I feel like sand is in my eyes when I wake up in the morning." They complain that their eyes hurt, itch, burn, or feel gritty as if a small piece of sand or particle is stuck in their eye. They also complain of having a difficult time opening their eyes and seem to be very sensitive to light.
