What is best book for satellite communication? - Quora

Fixed-satellite service (short: FSS | also: fixed-satellite radiocommunication service) is - according to article 1.21 of the International Telecommunication Union's (ITU) Radio Regulations (RR) - defined as A radiocommunication service between earth stations at given positions, when one or more satellites are used; the given position may be a ...

Fixed-satellite service - Wikipedia

The antenna diameter will be 1.6 meter and we will be transmitting signals ranging from 71-76GHz and 81-86GHz. Our satellite will use the 71-76GHz bands for its receiving signal and the 81-86GHz for the transmitting signals. Both will use the same satellite dish to conduct telecommunications, which will help us reduce part cost and complexity.
