Saturn car specifications
The Saturn car company came into being in 1985, with its first car, the Saturn S-Series four-door sedan, being launched in 1991. It was a spaceframe design, which meant many of the body panels were not stress-bearing, and so could be made from lighter materials.

Saturn Corporation - Wikipedia
The higher-level SL2 and the sporty SC coupe received a dual overhead cam engine, with a bump to 124 hp. This was significantly more than the 105 hp of the 1991 Honda Civic Si, and these engines produced more torque, as well. Saturn had successfully figured out how to make a better car than the Japanese, just as GM has set out to do.
