Automatic or manual mode. In a Scania truck, the driver can use the Retarder either in fully automatic mode (actuated by the brake pedal) or in a manual mode (actuated by the lever on the steering column). In automatic mode, the brake pedal activates the Retarder, automatically alleviating the disc brakes.

Trucks Workshop Repair manuals free download

We tested the Voith retarder on a test track of almost 5 km, including slopes up to 7%, and over a long-haul distance of more than 3,100 km under real conditions. The result: On the track with slopes, the average speed with the retarder increased by 56%. At the same time, the driver used the service brakes 85% less.
