Hanfu is a term used for the historical styles of clothing worn by the Han people in China. There are several representative styles of hanfu, such as the ruqun (an upper-body garment with a long outer skirt), the aoqun (an upper-body garment with a long underskirt), the beizi (usually a slender knee-length jacket) and the shenyi (a long, belted robe with wide sleeves), and the shanku (jackets ...

Section 1-Eyes . 1. How do we know that Kramer cannot see the same way most humans can? Kramer is shown a screen with a red "blob" on a green background. If he presses the red blob, he gets a treat. He does not press the red blob, so we know he cannot distinguish red from green like most humans can. 2. What are opsins and what do they do?

In mathematics, an inner product space or a Hausdorff pre-Hilbert space is a vector space with a binary operation called an inner product. This operation associates each pair of vectors in the space with a scalar quantity known as the inner product of the vectors, often denoted using angle brackets (as in  $\langle \cdot, \cdot \rangle$ ). Inner products allow the rigorous introduction of intuitive geometrical notions ...
