### **Sovereignty Over Airspace: International Law, Current ...**

The politics of outer space includes space treaties, law in space, international cooperation and conflict in space exploration, and the hypothetical political impact of any contact with extraterrestrial intelligence. Astropolitics, also known as astropolitik, has its foundations in geopolitics and is a theory that is used for space in its broadest sense. Astropolitics is often studied as an aspect of the security studies and international relations subfields of political science. This includes t
