Smart Pit Flight Manual File
Using the voice alert system, you can program the DX9 to tell you when specific telemetry values reach or exceed limits you define. You can also have it call out a sequence of telemetry values on demand with the flip of a switch. If you want to review telemetry after a flight, the DX9 can be set up to record the data to its SD card**.

An ion thruster, ion drive, or ion engine is a form of electric propulsion used for spacecraft propulsion.It creates thrust by accelerating ions using electricity.. An ion thruster ionizes a neutral gas by extracting some electrons out of atoms, creating a cloud of positive ions.These ion thrusters rely mainly on electrostatics as ions are accelerated by the Coulomb force along an electric field.
