Soccernomics is a statistical study of the world's most popular sport in the vein of Steven Levitt's bestseller Freakonomics. Authors Simon Kuper and Stefan Szymanski delve into soccer by abandoning all conventional wisdom about the sport and studying it strictly by the numbers.

Soccernomics by Simon Kuper - Goodreads

Written with an economist's brain and a soccer writer's skill, Soccernomics applies high-powered analytical tools to everyday soccer topics, looking at data and revealing counterintuitive truths about the world's most beloved game. It all adds up to a revolutionary new approach that has helped change the way the game is played.

?Soccernomics on Apple Books

Simon Kuper is a British author. He writes about sports "from an anthropologic perspective." Kuper was born in Uganda of South African parents, and moved to Leiden in the Netherlands as a child, where his father, Adam Kuper, was a lecturer in anthropology at Leiden University. He has also lived in South Africa (to escape the Dutch winters), Stanford, California, Berlin and London.
