perspectives with supporting evidence drawn from the literature. The findings suggest that, provided the necessary social conditions are in place, culture can be a protective force for children, families and communities. 1 For this paper, "Aboriginal" refers to Australian Aboriginal and Torres Strait Islander families and communities.

Australia - Settlement patterns | Britannica
This paper outlines the results of a literature review about the issues relevant to kinship care in Australia, with special

reference to policies and practices in New South Wales. The importance of kinship care is highlighted as a result of current state and territory reform processes and the increasing prevalence of kinship care placements across Australia.

Violent crime, with the intention of causing (or threatening) physical harm or death to the victim, attracts more attention and debate than other forms of crime. Sustained media attention combined with high-profile incidents, have prompted the view among the Australian public that violent crime is increasing. Trends in violent crime reported to police since the early 1990s however, reveal a ...

Australia - Australia - Settlement patterns: Australia has not yielded readily to development by Europeans. Even on the relatively favoured eastern periphery, the first European settlers were perplexed by the environment. Later, when they

penetrated the mountains of the Great Dividing Range, they had to fight even harder against searing droughts, sudden floods, and voracious bushfires.

Social security in Australia - Wikipedia

Is there a pattern to bullying? Australian research has revealed that bullying peaks in the middle primary school years and the first year of high school. This appears to be related to the rapid changes in the social skills and social demands for students at these stages. Some other general patterns of bullying have been identified.
