Answers. Review

Questions. 1. Define

syntax and semantics.

Syntax is the form of its expressions, statements, and program units.

Semantics is the meaning of those expressions, statements, and program units. 2.

Who are language descriptions for?

REVIEW QUESTION:

1. What are three reasons why syntax analyzers are based on grammars? First, using BNF descriptions of the syntax of programs are clear and concise. Second, can be used as the direct basis for the syntax analyzer. Third, implementations based on BNF are relatively...
