Guide - Sprint

visit sprint.com/airaveaccesspoint for complete user guide 1 System requirements: An always-on broadband Internet connection with a minimum of 350 kbps (both upstream and downstream) for voice services and 3 Mbps downstream and 1.8 Mbps upstream for data services is required for the AIRAVE to function properly.

Airave 3 LTE - Find Help for Your Cell Phone: Sprint Support

ok so I'm having one hell of a time getting my airave to work behind my router (ie, it has never worked). I know sprint's preferred setup is to have the airave device in front of the router and connected directly to the modem, but this thread proves that there's no need for such a setup, and i really don't care to have the airave device take over the setup my my network.
