So this should not be a problem. I am diver certified and all of the correct answers in this test were accurate if you disagree with something there is an explanation in the PADI Open water diver manual No. 19 - If a diver is unresponsive it could be due to a number of factors. E.G. O2 Toxicity.

www.divessi.com

The PADI open water diver manual seems like it was created to answer the most commonly asked basic questions that brand new divers have been asking over the last decades. SSI relies on the instructors to fill in these blanks, while they use the curriculum to cover more technical subject matter, prepping beginning divers for possible conversations with navel academy graduates at the dive bar.
