Steps to an Ecology of Mind - Monoskop  
Whether one is reading it for the first time or returning after a lapse of years, Steps to an Ecology of Mind is today not the same book as it was when first published some fifteen years ago, and for most readers its impact should be greater. We have changed and the broad intellectual climate has changed.

Gregory Bateson (9 May 1904 – 4 July 1980) was an English anthropologist, social scientist, linguist, visual anthropologist, semiotician, and cyberneticist whose work intersected that of many other fields. His writings include *Steps to an Ecology of Mind* (1972) and *Mind and Nature* (1979).. In Palo Alto, California, Bateson and colleagues developed the double-bind theory of schizophrenia.

Steps to an Ecology of Mind | Bodhi Tree  
Steps to an Ecology of Mind is simply a masterpiece. In this collection of seemingly disparate essays, Bateson takes the reader on a journey that connects diverse patterns and offers an insight into a means of thinking systemically about ourselves, our relationships to each other and to the environment.
