Anthropology Flashcards*

Linguistics is a field of anthropology focusing on analysis of language development and language variations. Socio-cultural anthropology studies culture and the relationship of culture to other aspects of social life; it shares much in common with each of the other social sciences, and especially sociology.

Status of contemporary cultural anthropology. It is true that cultural anthropology has not reached a state of complete coherence. This is clear from the persistence of divergent national traditions and from the way in which research can be impregnated with explicit or implicit ideologies. It is also true that different schools of thought coexist in the same country and that cultural ...
