Sulcata Tortoise Guide | Facebook

The sulcata tortoise (*Geochelone sulcata*), also known as the African spurred tortoise, is one of the largest tortoise species in the world. It has a brown to yellow shell and very thick, yellowish-brown skin, along with pointed scales or spurs on its legs. Native to arid and semiarid regions of Africa, these tortoises can adapt to various living conditions, which is one reason why they have ...

Keep your tortoise's habitat toasty and damp, like the warm countries these pets come from. The degree of heat and humidity in the habitat will depend on their breed: Russian Tortoises do best in slightly warmer, drier environments with about 50% humidity; while Greek Tortoises like it slightly cooler and wetter, with up to 80% humidity.

Sulcata Tortoise Pet Owners Guide. The Captive Care of ...

Like the sulcata, the leopard tortoise, Aldabra tortoises, and Galapagos tortoises have evolved to eat various grasses. Their diet would consist of two thirds or three quarters in grasses or hay. The rest of their diet should be flowers, weeds, and greens. What fun to put your pet tortoise in the backyard for her meals and play time!
