Atwood's *Survival* was a seminal book for me back in the 1970's. Her theory that there are national themes in literature is very useful for studying cultures generally. The rap on the book is that she has not done a thorough, scholarly job of research and tends to favour references to books written by her friends or published by her publisher.

House of Anansi in 1972. A work of literary criticism, as Atwood writes in her preface to the 2004 edition, *Survival* was an attempt to deal with her belief that in the early 1970s, Canadian literature was still looking for a grounding in a national identity that would be comparable to that of Great Britain or the United States.

Canadian Literature (1995). Internationally, Atwood is celebrated for the blunt feminism of her books.

from Atwood's Survival

Initially published in the early '70s, Margaret Atwood's *Survival* dared to think critically about Canadian literature when its existence alone was a matter of fierce debate. In the book, Atwood tries to locate the central preoccupations of our poetry and fiction, and she succeeds by providing whip-smart criticism written in her distinctly provocative voice.
