Leo Hickman meets the author of this year's must-read ... The noted climate researcher Ken Caldeira suggested I read Sustainable Energy - without the hot air by David MacKay. I'm grateful for his recommendation. The book is available for free at: www.withouthotair.com where you can also buy it in hard copy. There's also a great video of MacKay that I really like. I agree with Ken that this is one of the best books on energy that has been written.

David MacKay Sustainable Energy without the hot air ... Sustainable energy is the practice of using energy in a way that "meets the needs of the present without compromising the ability of future generations to meet their own needs.". Meeting the world's needs for electricity, heating, cooling, and power for transport in a sustainable way is widely considered to be one of the greatest challenges facing humanity in the 21st century. Worldwide ...
