Achiever Student:

Miscegenation (/ m ? ? s ? d ? ? ? n e ? ? ? n /) is the interbreeding of people who are considered to be members of different races. The word, usually considered pejorative, is derived from a combination of the Latin terms miscere (meaning "to mix" by German mistranslation; actually meaning "to move") and genus ("race") from the Hellenic ??????. The word first appeared in ...

Associations Between Screen-Based Media Use and Brain ...
The domains of child development and early learning are discussed in different terms and categorized in different ways in the various fields and disciplines that are involved in research, practice, and policy related to children from birth through age 8. To organize the discussion in this report, the committee elected to use the approach and overarching terms depicted in Figure 4-1.

Evidence Brief: Effectiveness of Intensive Primary Care ...
In this study of 47 preschool-aged children, increased use of screen-based media in the context of the AAP guidelines was associated with lower microstructural integrity of brain white matter tracts that support language, executive functions, and emergent literacy skills, controlling for child age and household income.

Child Development and Early Learning - Transforming the ...
Language processing is a trait of human species. The knowledge about its neurobiological basis has been increased considerably over the past decades. Different brain regions in the left and right hemisphere have been identified to support particular language functions. Networks involving the temporal cortex and the inferior frontal cortex with a clear left lateralization were shown to support ...

An ebook (short for electronic book), also known as an e-book or eBook, is a book publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices. Although sometimes defined as "an electronic version of a printed book", some e-books exist without a printed equivalent.

Te Bilingual Supplemental 164 Study

Improving the healthcare of Americans with multiple chronic conditions is one of the top aims of the U.S. national healthcare research agenda. One of the driving forces behind this objective is the disproportionately high concentration of healthcare expenditures that are attributed to this population. The 2009 Medical Expenditure Panel Survey (MEPS) found that the sickest 10 percent of ...
