the EU New Regulatory Framework, as well as the establishment of the Body of European Regulators for Electronic Communications (BEREC).

Telecommunications Law and Regulation: Ian Walden ...

The Telecommunications Act of 1996 was the first significant overhaul of telecommunications law in more than sixty years, amending the Communications Act of 1934. The Act, signed by President Bill Clinton, represented a major change in American telecommunication law, since it was the first time that the Internet was included in broadcasting and spectrum allotment.
