options for every budget. (For a fuller explanation of our methods, see the below story on how we made our rankings.) For the sake of consistency, we reviewed 8x32 (pronounced "eight by thirty-two") or 8x42 optics. Most birders prefer 7- or 8-power binoculars because they're bright and have a wide field of view, making it easier to find birds and to follow them in flight.

The Ultimate Guide to Digital Marketing doesn't present hype about the latest flashy tactics in marketing—digital or otherwise. Instead, this resource covers foundational disciplines such as content marketing, social media marketing, and email marketing, always in the context of the goals that businesses care about.

The Ultimate Guide to Digital Marketing | DigitalMarketer

Peterson is the only bird field guide that has both. Personally, I like Peterson Guides for several reasons... For each bird, there are arrows pointing to the most important field marks for identification. The font size of the descriptions are larger and easier to read than National Geographic's.

The Future of Birding Field Guides is Digital - 10,000 Birds

Birdwatching, or birding, is a form of wildlife observation in which the observation of birds is a recreational activity or citizen science. It can be done with the naked eye, through a visual enhancement device like binoculars and telescopes, by listening for bird sounds, or by watching public webcams. Birdwatching often involves a significant auditory component, as many bird species are more
