Better known for free eBooks in the category of information technology research, case studies, eBooks, Magazines and white papers, there is a lot more that you can enjoy on this site.

Some Important Piping Codes and Standards - Make Piping Easy
the Conduct of Trials of Steam Boilers, in 1884. This paper evolved into Rules for the Construction of Stationary Boilers and for Allowable Working Pressure—the first edition of ASME's now-legendary Boiler and Pressure Vessel Code (BPVC)—issued in 1914 and published in 1915. The BPVC has grown over the decades

The Book Of Steam Piping

Piping systems are made of components like pipes, fittings, flanges, gaskets, bolts, nuts, valves, strainers, piping supports, and special parts such as steam traps, bellows, flame arresters, hoses, sight glasses, etc. These piping components can be made in a variety of materials and through different manufacturing processes, in different types and sizes.
