Paul Collier: The "bottom billion" | TED Talk

Countries of the bottom billion are often too poor to harness the wealth they gain from natural resources, such that other sectors of the economy remain stagnant, prohibiting future economic development.

On Missing the Boat: The Marginalization of the Bottom Billion in the World Economy It is not impossible, but difficult to escape from the black hole. Globalization is helping the developing world grow faster than the developed countries, but it is causing the bottom countries to fall further behind because of global trade (to others), the flow of capital (out) and the migration of people (out).
