The Economist Guide to Financial Management - Understand ...

Economics may appear to be the study of complicated tables and charts, statistics and numbers, but, more specifically, it is the study of what constitutes rational human behavior in the endeavor to fulfill needs and wants.

The Economist - RationalWiki

Economist A person, especially but not necessarily an academic, who studies how people produce, trade, and use goods and services. Economists look at how different actors, such as individuals, companies, and governments, interact with one another to maximize the fulfillment of their needs through the use of scarce resources. Economists also study supply ...
