David Buss | Troubleshooting Strategies from the Evolution ...

Modern humans have inherited the mating strategies that led to the success of their ancestors. These strategies include long-term mating, short-term mating, extra-pair mating, mate poaching, and mate guarding. This article presents empirical evidence supporting evolution-based hypotheses about the complexities of these mating strategies.

The Evolution of Desire: Strategies of Human Mating ...

The Evolution of Desire is indeed quite interesting. Data shows that in the sexual selection process, humans choose between temporary (casual) and long-term (co-parenting) and use many strategies to attract and keep a mate. For the most part, men want casual sex with a young, beautiful child-bearing female.
