Edward Grant - Wikipedia

Muslim chemists and alchemists played an important role in the foundation of modern chemistry. Scholars such as Will Durant and Fielding H. Garrison considered Muslim chemists to be the founders of chemistry. In particular, Jabir ibn Hayyan (c. 721–815) is "considered by many to be the father of chemistry".

The Foundations of Modern Science in the Middle Ages ...

To the medieval thinker, man was the center of creation, and all of nature existed purely for his benefit. The shift from the philosophy of the Middle Ages to the modern view of humanity's lowly central place in the universe ranks as the greatest revolution in the history of Western thought, and this classic in the philosophy of science describes and analyzes how that profound change occurred.
