The Future of the Curriculum: School Knowledge in the ...

The Curriculum of the Future: From the "new Sociology of Education" to a Critical Theory of Learning. Looking forward, Young discusses how most developed countries have high levels of participation in post-compulsory education, but still use curricula designed for a time when only the elite pursued further education. He argues the need to rethink post-16 education to shift focus onto vocational education, school-work issues and lifelong learning.

Curriculum for the future

Any discussion on the future of work should go hand-in-hand with a discussion on the future of a diverse curriculum that caters to every need of a child in this 21st Century. Problem-solving, creative thinking, digital skills, and collaboration are needed more than ever in our primary schools.
