The globalizers: The IMF, the world bank, and their borrowers

The process of defragmenting Africa under the AfCFTA is therefore the first step toward boosting competitiveness and integrating African economies into the global economy as active globalizers. The continental free trade area will establish a market of 1.2 billion people with a combined GDP of \$2.5 trillion and combined consumer and business spending of more than \$4 trillion.

The Globalizers: The IMF, the World Bank, and Their ...

The rapid growth of the globalizers relative to the rich countries means that the globalizers are narrowing the per capita income gap. Moreover, because most of the globalizers—especially China, India, and Bangladesh—were among the poorest countries in the world twenty years ago, their growth has been a force for narrowing worldwide inequality.
