The Heat of the Hearth: The Process of Kinship in a Malay ... Janet Carsten offers an original and very personal investigation of the nature of kinship in Malaysia, based upon her own experience of life as a foster daughter in a family on the island of Langkawi. She shows that Malay kinship is a process, not a state: it is determined partly by birth, but also throughout life by living together and sharing food.

Hestia's name and functions show the hearth's importance in the social, religious, and political life of ancient Greece. The hearth was essential for warmth, food preparation, and the completion of sacrificial offerings to deities. She was also offered the first and last libations of wine at feasts. Her own sacrificial animal was a domestic pig.

The word hearth derives from an Indo-European root, *ker-, referring to burning, heat, and fire (seen also in the word carbon). In archaeology, a hearth is a firepit or other fireplace feature of any period. Hearths are common features of many eras going back to prehistoric campsites and may be either lined with a wide range of materials, such as stone or left unlined.

The heat output of the fire was no
longer reliant upon its size. As
already mentioned the chimney
made it possible to reposition the
fireplace from the centre or corner
of the room to the wall whilst the
increase in radiant heat meant the
space beyond the immediate front
of the fire would be heated.

Over time, and depending on the size of your home, the hearth migrated from the kitchen into the living room - and became more about heat, ambiance and comfort than it was about meal preparation. While electricity and gas pulled us away from hearth-centric home plans, the idea of open fires and fireplaces - not to mention cooking - continue to draw the attention and affection of 21st century ...
