Commodification is the process by which something becomes a commodity. A commodity has two primary characteristics: it has a market price and is undifferentiated. Commodification is associated with the creation of markets for things such that they are bought and sold at a market price. It is also associated with a breakdown of differentiation whereby things that were viewed as unique are viewed ...

[The Knowledge Business: The Commodification of Urban and ...](#)  
Commodification has impacted the business environment in different ways. Capitalism allows entities or individuals to own anything at all – from physical goods to ideas – which led to introduction of intellectual property laws. While the laws has a scope to protect the owner, the owner has the right or possibility to trade its asset.

The Commodification of Knowledge and Information

Commodification is often criticised on the grounds that some things ought not to be treated as commodities—for example water, education, data, information, knowledge, human life, and animal life. [5] [6] Human commodity is a term used in case of human organ trade , paid surrogacy also known as commodification of the womb , and human trafficking .

Commodification - Wikipedia

This chapter considers instead the conditions under which knowledge is exchanged in science, with particular attention to the boom in bioinformatic resources characterizing contemporary biology and medicine. I show how the ongoing commodification of the life sciences affects the ways in which data are circulated across research contexts.

15 Examples of Commodification - Simplicable

This entry presents an analysis of the commodification of knowledge and information in contemporary capitalism. We provide a consistent account of how information as a commodity effects the workings of both capitalism and of Marxist theory. The first part of the chapter critically revisits Marx's own writings on the commodification of knowledge and how the immaterial labor hypothesis ...
