The Language of Genes Quotes by Steve Jones

If the history of life is the history of DNA, then this survey of genetics is an essential book for anyone interested in the development and possible future of our species. Jones (Genetics/University College, London; editor, The Cambridge Encyclopedia of Human Evolution, not reviewed) expands a BBC lecture series on genetics into an accessible and wide- reaching survey of that science and of ...

The Language Of Genes Steve

The Language of Genes by Dr. Steve Jones is not a textbook in genetics, but rather an expose on how the the study of genetics began and why (to prove bloodlines in royalty). He is thorough in covering the field of genetics, beginning his tour with Mendel's peas and taking us to the Human Genome Project (which was only in the inital stages at the writing of this book).
