and His Emissary, by Iain
McGilchrist. General idea:
The brain is divided into
two hemispheres. This
division is significant, as
it helps explain fundamental
aspects of human experience
and Western thought. The two
hemispheres provide two
radically opposed realities,
and their co-operation can
be conflictual.

This is an image of the front page of a wiki I have created to record my notes on Iain McGilchrist's 'ground breaking' book, The Master and His Emissary. The Divided Brain and the Making of the Western World. During this time of enforced lockdown, this seemed like the perfect opportunity to re-read and engage more slowly and deeply with this very long and dense text.
