LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

### **The Nemesis File The True**

'The Nemesis File' was originally published as a fact-based memoir in 1995. During a police investigation (concluded in 1996), however, the author admitted that his claims were untrue. The investigation proved that the book was fraudulent, that the purported SAS "execution squads" did not exist, and that the book is not a memoir but a "work of fiction."
