The Numerati - Wikipedia
In this tour de force of original reporting and analysis, journalist Stephen Baker provides us with a fascinating guide to the world we're all entering -- and to the people controlling that world. The Numerati have infiltrated every realm of human affairs, profiling us as workers, shoppers, patients, voters, potential terrorists -- and lovers.

The Numerati: Stephen Baker: 9780547247939: Amazon.com: Books

Award-winning journalist Stephen Baker traces the rise of the "global math elite": computer scientists who invent ways to not only record our behavior, but also to predict and alter it. Nowadays, we don't need to be online to create a digital trail; we do it simply by driving through an automated tollbooth or shopping with a credit card.

Stephen Baker
STEPHEN BAKER was BusinessWeek's senior technology writer for a decade, based first in Paris and later New York. He has also written for the Los Angeles Times, Boston Globe, and the Wall Street Journal. Roger Lowenstein called his first book, The Numerati, "an eye-opening and chilling book."
