Zone System - Wikipedia

As promised in the first few pages, his description of the zone system is truly more practical and less theoretical and dense than many of the other descriptions I've come across. In short, after reading Johnson's book, I am able to put the zone system to work...or at least I'm beginning to. As with all things analog, it takes practice.

Zone System for Landscape Photography. There are really only two choices. Zone 5 isn't a highlight, it's a midtone, while Zone 8 is washed out. So that leaves Zone 6 or Zone 7. Use Zone 7 for objects that are white or nearly white, like white water, snow, light sand or very light rock. Use Zone 6 for any other highlight, including tans, yellows or other pastel colors.
