More research on the ways that competency traps appear among coevolving organizations would help to illuminate these consequences of the Red Queen dynamic. To conclude, we note that if once it was common for research on organizations to draw inferences from cross-sectional “snapshots” of data, modern

Organizations
We argue that

competition among

organizations is history-

dependent, so that each

organization ' s

competitiveness at a

given point in time

hinges on the

organization ' s

historical experience

leading up to that point.

Specifically, we

summarize the theory of
