It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Roman Army - Ancient History Encyclopedia

The cavalry in the early Roman Republic remained the preserve of the wealthy landed class known as the equites—men who could afford the expense of maintaining a horse in addition to arms and armor heavier than those of the common legions. Horses were provided by the Republic and could be withdrawn if neglected or misused, together with the status of being a cavalryman.

Yes, the Roman army had a cavalry which consisted of auxiliaries and some Romans who could stay on a horse. The cavalry was an integral part of the legion, both in battle and in scouting.

The Roman Cavalry | Taylor & Francis Group

Rome drew most of its cavalry from countries with large amounts of flat plains that bred good horses and horse men. This included Numidian cavalry (against Hannibal), and later German cavalry from North German plains.

The Sinister Roman Cavalry Helmet of the Ribchester Hoard ...

The most bizarre element of the book though is her insistence that the Roman cavalry games described by Arrian were essential. Arrian is not easily accessible, so for that alone this is a useful book, though as usual with Hyland, she is confined to English-language publications, so she is not aware of e.g. Junkelmann's books on the Roman cavalry.
