His novel Émile was the most significant book on education after Plato's Republic, and his other work had a profound impact on political theory and practice, romanticism and the development of the novel.

The Wholeness Of Nature
Henri Bortoft (1938–2012) was an independent British researcher, teacher, lecturer, and writer on physics and the philosophy of science.He is best known for his work The Wholeness of Nature, considered a relevant and original recent interpretation of Goethean science.His book Taking Appearance Seriously: The Dynamic Way of Seeing in Goethe and European Thought was published in 2012.

About Us | Whole Nature Vitamins & Supplements
Nature, in the broadest sense, is the natural, physical, or material world or universe. "Nature" can refer to the phenomena of the physical world, and also to life in general. The study of nature is a large, if not the only, part of science.Although humans are part of nature, human activity is often understood as a separate category from other natural phenomena.
