Schwing offers many different placing boom mounting options and their cross frame accessory was easily bolted to the climbing form system. A four-meter section of octagonal mast with a universal head section was then bolted to the cross frame giving the 28-meter placing boom the necessary height to clear the forms.

Features Frame materials. Women's Schwinn bikes have either a steel, aluminum, or carbon fiber frame. Steel is strong and has some natural shock-absorbing properties, but it's heavy.; Aluminum is lighter than steel but still very strong.It's a common material since it's affordable but light enough for bikes that need to go fast.
