Market trend - Wikipedia

Trading with the trend: Channels and trend lines Channels and trend lines are another way of identifying the direction of a trend and they can also help you understand range markets much better. Whereas moving averages and the analysis of highs and lows can also be used during early trend stages, trendlines are better suited for later trend stages because you need at least 2 touch-points (better 3) to draw a trendline.

Incredible Charts: How To Trade Trends

trading the trend for bigger profits! It's no secret that trending markets are the 'sweet-spot' in trading. The biggest profits come from trends, but few traders know how to trade them. They jump the gun or get in way too late when the trend is nearly over.

Trend Trading Strategies - The Right Side of The Market

A trend trading system builds psychological pressure as the trader witnesses repeated gains followed by significant retracements and frequent late exits at trend reversals. Pressure can build to such an extent that the trader overrides his system, attempting to take profits at a perceived high point in the trend.
