Highland climate, major climate type often added to the Köppen classification, although it was not part of German botanist-climatologist Wladimir Köppen's original or revised systems. It contains all highland areas not easily categorized by other climate types. It is abbreviated H in the

Highland climate | meteorology | Britannica

Climate change - Climate change - Evidence for climate change: All historical sciences share a problem: As they probe farther back in time, they become more reliant on fragmentary and indirect evidence. Earth system history is no exception. High-quality instrumental records spanning the past century exist for most parts of the world, but the records become sparse in the 19th century, and few ...

Comparing the magnitude of geologic time to spans of time within a person's own lifetime is difficult for many students. In this activity, students use a long paper strip and a reasonable scale to represent visually all of geologic time, including significant events in the development of life on earth as well as recent human events.

Chapter 6: Activities for Teaching About Evolution and the ...

That vote is planned for 2022, which may seem a long way away but, as Turner puts it, "it takes time to do science." The clock is ticking. As a result, 2020 was a major year for scientists working at potential golden spike sites in Asia, Europe, North America, Australia and Antarctica.

A greenhouse gas (sometimes abbreviated GHG) is a gas that absorbs and emits radiant energy within the thermal infrared range, causing the greenhouse effect. The primary greenhouse gases in Earth's atmosphere are water vapor (H 2 O), carbon dioxide (CO 2), methane (CH 4), nitrous oxide (N 2 O), and ozone (O 3).Without greenhouse gases, the average temperature of Earth's surface would be about ...

Greenhouse gas - Wikipedia

Formerly, in prehistoric days, land animals (quadrupeds, apes, reptiles, birds) were built on a gigantic scale. Our Creator cast them using a colossal mold that time has gradually made smaller. With its untold depths, couldn't the sea keep alive such huge specimens of life from another age, this sea that never changes while the land masses ...
