Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

The MBM Triumph 4810 D is a precision cutting machine, designed for cutting large stacks of paper. The clamping mechanism on this stack cutter is manually activated, but an electric motor drives the blade. The 4810 D is capable of cutting through up to 3" of paper, which is more than an entire ream.
