Installation Guide - mitek-us.com

Stabilizer Lateral Brace. The Stabilizer™ permanent lateral brace makes truss bracing easy. The 24" on center Stabilizer spaces trusses exactly; within 1/32" - without measuring or layout sticks. It remains as a permanent structural lateral brace which means you do not have to "uninstall" it like you do with temporary wood bracing.

Simpson Strong-Tie TSBR 22-Gauge Galvanized Truss Spacer ...

A stabilizer can provide the lateral installation restraint for cold-formed steel trusses. "The stabilizer snaps on the top chord and bottom chord members, providing the required bracing of truss chords and also provides for the proper spacing," says Mike Pellock, executive vice president at Aegis Metal Framing, Chesterfield, Mo. "Stabilizers are delivered with the truss package."
