Library Genesis is a search engine for free reading material, including ebooks, articles, magazines, and more. As of this writing, Library Genesis has close to 3 million ebooks and 60 million articles. It would take several lifetimes to consume everything on offer here.

FCC RF Test Report - Adafruit Industries

The .NET Framework version 1.1 provides improved scalability and performance, support for mobile device development with ASP.NET mobile (formerly the Microsoft Mobile Internet Toolkit), support for Internet Protocol version 6, and ADO.NET classes for native communication with Microsoft Database Connectivity (ODBC) and Oracle databases.

E3306A Smartphone User Manual Apple

The S/N Prefix and FCC ID designation are ways you can tell what version of hardware your router is. The table above (which I found on the internet) shows examples for version 1 and 2 but does not list hardware version 2.2. I am guessing it wouldn't be a stretch to assume that at least some models show as Q87-E1200V2.2 for hardware version 2.2.

Version V1 Fcc Id

The FCC chooses 3 or 5 character "Grantee" codes to identify the business that created the product. For example, the grantee code for version V1 is 2AVER. The remaining characters of the FCC ID, -V1, are often associated with the product model, but they can be random. These characters are chosen by the applicant.

How to find the hardware version on a TP-Link device? | TP ...

I definitely have the version 1 WRT1900ACS and it does list the model as WRT1900ACSV2. I know it is version one because I got it as such. WRT1900ACS became available and before there was a version 2. My FCC ID also says WRT1900ACV2. Someone who has a version 2 needs to know what their labels say for the model and FCC ID to compare.

System Alerts & Notifications | Federal Communications Commission

ESP32 is a series of low-cost, low-power system on a chip microcontrollers with integrated Wi-Fi and dual-mode Bluetooth. The ESP32 is based on the Tensilica Xtensa LX6 microprocessor in both dual-core and single-core variations and includes built-in antenna switches, RF balun, power amplifier, noise receive amplifier, filters, and power-management modules.

Cisco Valet routers - Wikipedia

Who Files What? All facilities-based broadband providers are required to file data with the FCC twice a year (Form 477) on where they access service at speeds exceeding 200 kbps in at least one direction. Fixed providers file lists of census blocks in which they can or cannot provide service at least one location, with additional information about the service.*
