It has a step by step guide to diagnosing your system. Since the system uses a pressure SENSOR and not a SWITCH you can not bypass it, but there is a way to test it. Since you don't get any fan activation when turning the a/c on and off, I would guess the sensor is the culprit. But the diagnosis guide will tell you for sure.

air conditioner problems: help needed for ac
we have a 2006 passat 2.0 and the ac has
never worked well. it has been to the original
dealer and they said it was fine but if i put
a temp gauge in the ac vent the temp is
usually around 60 degrees with the blower on
high if i move the fan speed down a notch it
will drop the temp another 10 degrees which
isnt exactly cold when its 105 outside or ...
