panic-mechanic wrote:When I build engines and do stuff like this I do it when there is nobody else around, No distractions, No phone nothing so that you don't forget what you should be doing.It's the little things that make them run right. Anybody can slap a basic bottom end together. that is the easy bit. It's all the little things that makes these builds a success or not.

Volkswagen Polo Complete Engines | eBay

Clutch Replacement First off I wanted to make this to show everyone that you don't need a huge shop with a lift to do this. Also as some others have mentioned before you do not need to drop the subframe whatsoever. People always ask me if it can be done in their garage and it can. I tried to take pics of every step and be thorough in my descriptions.
