### Choosing Light Bulb Types | Lowe's

1. Most of interior design professionals are now choosing track lighting instead of free-standing lamps for small rooms. This type of lighting is improving each year and now is close to perfect. There are many small and beautiful lights available, they will fit in a small space much better than large tracks with huge lights.

### Light Bulb Shape and Size Chart | Reference Charts | Bulbs.com

The bulbs/tubes have a coating inside that turns the UV rays into visible light. They use less energy than an incandescent bulb and are ideal for offices, kitchens, hallways and other areas that need a large area of light. Fluorescent bulbs also produce about 75% less heat than incandescent bulbs, so they keep rooms cool with less energy.
