Walled Garden | City & Guilds

A walled garden is a garden enclosed by high walls for horticultural rather than security purposes, although originally all gardens may have been enclosed for protection from animal or human intruders. In temperate climates, the essential function of the walls surrounding a walled garden is to shelter the garden from wind and frost, though they may also serve a decorative purpose.

Closed platform - Wikipedia

Walled kitchen gardens are an important part of our history, yet are now largely neglected and little understood. For centuries, most large country houses had a walled kitchen garden. They were highly productive places, supplying food, herbs and flowers for the family, staff and guests of the big house. The high walls provided protection from predators and the elements and also created a micro ...
